

# PIEDMONT

## Castles & Wine, Truffles & Slow Food Chocolate & more...

The 9-day tour of the Piedmont region is filled with a variety of landscapes, food & wine, castles & the many picturesque villages. Piedmont is in Italy's northwestern corner, at the border with France and Switzerland. The tour begins in Turin, and ends in Milan.

Turin, was, for the first four years after the unification of Italy, capital (1861-1865), and it was also home of the noble House of Savoy, who reigned in the area for a long time and become Kings of Italy until World War II.

It has many beautiful palaces to see including the Royal families palace just outside Turin is a great spot to visit. The Holy Shroud is also housed in the Cathedral of St. John the Baptist. After seeing the sights of Turin, we will make a day trip to the Alps to see the breath-taking Sacra di San Michele.

Next, we will head to the heart of the wine area, and stay in a characteristic boutique hotel for two nights. This area produces not only the award-winning Barolo and Barbaresco wines, but also the world famous truffles. We will make our way through wineries, castles and other scenic spots.

After the wine area, we head to the Borromeo Islands on Lake Maggiore. We will spend two nights in this scenic area to fill our eyes and souls with the beauty the area has to offer.

We will then make our way to Milan, where we will spend our last night, conveniently located near the airport, to facilitate departures the next morning.

Join us! It will be a great discovery of a magical area. Questions? Email or call us!
